in collaboration with

**CHAT-MALO**  
PARIS

Below, you will find the individual Uniform Lists for girls and boys split into 3 categories: Primary, Secondary, and Post-16. All items marked **ISM** must be bought from our supplier Chat-Malo.

Other items may be bought either from our supplier or elsewhere.

The new uniform may be purchased either **online** or at the Chat-Malo **uniform shop** in Beausoleil.

### Returning students & the old School Blazer uniform:

After a year of transition from the old School Blazer uniform, we are excited to start the **September 2024** school term at our new school location in Testimonio with a strong united school identity.

Together with Chat-Malo and feedback from the PTA, we have used the transition year to adapt and add new elements of the uniform.

# THE ISM SCHOOL UNIFORM

## The International School of Monaco Uniform

The International School of Monaco's uniform is an emblem of the school's identity that gives a sense of belonging and pride whilst ensuring equality amongst students. With subtle adjustments over the years, we are proud to have arrived at a uniform that is designed for our mild climate and is both comfortable and smart. It is **compulsory** that all children from Kindergarten to Year 13 wear the specified ISM uniform without modification.

## Personal Presentation

The uniform plays an important part in supporting the school's values and in establishing a sense of belonging. Each student is expected to be properly attired in full uniform, either school or sport uniform, whilst at school, travelling to and from school, and when representing the school at external functions and events. There will be scheduled non-uniform days on the School Calendar and occasions when children are permitted to wear alternative clothing by agreement with their teacher.

Students are expected to take pride in their personal appearance and to be neatly attired and well groomed. Hair must, whilst in school uniform, be neat, kept away from the eyes and of a natural colour. If children have their ears pierced, we ask that this done at the beginning of the summer holidays so as not to restrict them from taking part in games, PE and swimming. Students may wear discreet jewellery. No smart watches or phones are permitted during school hours. We greatly appreciate your support with this.

## Labelling

Please ensure that every item of clothing and equipment, including footwear and sports kit, is clean and clearly named. Name labels with the ISM logo may be purchased through our supplier Chat-Malo (**optional**).

P A R I S

## About Chat-Malo

Founded in Paris in 2016, Chat-Malo is built on its authentic values and a feeling of belonging. It stands for a committed, timeless and comfortable brand that grows not only with its children, but also in its commitment to the environment and the world its children grow up in.

## The International School of Monaco Uniform

The school uniform plays an important part in supporting the school's values and in establishing a sense of belonging. It reinforces an identity that the International School of Monaco has gradually developed throughout its history. The school uniform has been developed under the guidance of the Board of Trustees with the aim of carrying forward an existing identity and improving the quality of the uniform to complement the mild climate of the South of France.

## Fabrics and Labels

We believe that the quality of the fabric is fundamental for the well-being and comfort of our children, and we work with high-grade materials ranging from quick-dry technical sportswear, to organic cotton (where possible), to soft-flowing mixed fabrics. The garments produced by Chat-Malo are fitted with soft cotton clothing labels, giving your children the freedom to move and run around in comfort.

## A brand that cares

As mothers ourselves, we are passionate about adding elements from our own personal experiences, and we pay particular attention to detail when designing the various elements of the uniform. Environmental and social awareness is key to how we operate, meaning that we continually try to improve our carbon footprint, and we consciously choose the companies we work with. The majority of our factories are small, family-run businesses around Europe, allowing us to develop a personal relationship with our producers and to work towards providing maximum quality.
